Subject: Re: Additional Geoprobe Points

Jack.

We look forward to your proposed map with the sample locations today 8/15/2016.

Thanks,

John Nordine

Subject: Additional Geoprobe Points

John & Bob:

Based on EPA's August 5 email, below, Central Wire plans to add the three Geoprobe points requested by EPA (three samples at each point at 27, 57 and 85 feet belowground) on August 24 and 25, 2016.

Central Wire plans on identifying these locations on August 15, 2016 and will provide them to EPA.

Please call me if you have any questions or concerns.

Regards,

Jack

Subject: The results of the semiannual monitoring and residential well sampling; and the 2016 RCRA CMI Field Investigation, Techalloy, Union, IL

Mr. Ruopp,

The exceedence of the MCL for 1,1-DCE in at GP-27 necessitates additional sampling in at three downgradient locations. EPA suggest one location about 100-150 ft due north of GP-27, a second a similar distance oriented about 60 degrees west of north from GP-27, and a third location about halfway between GP-27 and GP-24. Please provide the EPA two weeks' notice of the planned field work. If you have any questions please contact me.

Respectfully,

John Nordine, CPG, LPG
